Amendment to the Claims

This listing of claims will replace all prior versions and listings of claims in the abovereferenced application.

<u>Listing of Claims:</u>

- 1.-16. (Cancelled)
- 17. (Currently amended) An electromechanical device, comprising
 a substantially planar electroactive ceramic member having grooves defined on a
 planar surface of the member, whereby the grooves allow the member to <u>bend to</u> conform
 to a curved surface.
- 18. (Original) The electromechanical device of claim 17, wherein the device is an electromechanical sensor or actuator.
- 19. (Original) The electromechanical device of claim 17, wherein the device can conform to a curved surface having a radius of curvature no greater than 0.25".
- 20. (Original) The electromechanical device of claim 17, wherein the grooves are substantially parallel and the member can conform to a cylindrical surface.
- 21. (Original) The electromechanical device of claim 17, wherein the grooves are substantially concentric and the member can conform to a spherical surface.
- 22. (Original) An electromechanical device, comprising a substantially planar bimorph electroactive ceramic member having slots defined in the member, whereby the slots multiply an electromechanical bending response of the bimorph member.
- 23. (Original) The electromechanical device of claim 22, wherein the device is an electromechanical sensor or actuator.

- 24. (Original) The electromechanical device of claim 22, wherein the slots are substantially concentric.
- 25. (Original) The electromechanical device of claim 22, wherein the slots are substantially parallel.
